CTR ROLLS OUT “BLACK & GOLD” CARPET FOR IPI TRADE SHOW

WARRENDALE (June 7, 2011) — CTR Systems proudly welcomed thousands of visitors to its hometown for the International Parking Institute’s (IPI) 2011 trade show.

As an integral part of the show’s Pittsburgh Host Committee, chaired by Dave Onorato of the Pittsburgh Parking Authority, CTR employees welcomed and registered attendees and guided guests on a series of parking tours and an outing to a Pittsburgh Pirates baseball game.

“We were very excited to represent our city and join Pittsburgh Parking Authority in making sure that everybody received a friendly greeting,” said Doug Duffy, CTR President. “I would like to congratulate the CTR family for doing an outstanding job of showcasing all that our city has to offer.”

As one of the largest parking industry events in the world, the 2011 IPI Conference & Expo brought 225 exhibitors and more than 2,400 attendees from 25 countries to the David L. Lawrence Convention Center May 22 - 25.

CTR’s integral participation in the Host Committee was spearheaded by administrative assistant Betty Schendel, who coordinated 102 volunteers from CTR, Pittsburgh Parking Authority and Carnegie Mellon University.

(more)

The CTR team organized a series of parking tours attended by more than 300 people. CTR employees also assembled five door prize baskets for the event and staffed a welcome booth at Pittsburgh International Airport, greeting conference-goers as they arrived and wishing them a safe journey home.

“We wore very distinctive shirts donated by CTR, and they saw us everywhere,” Schendel said. “It created a sense of recognition and safety and everyone felt very warmly received.”

About CTR Systems Inc.

CTR Systems Inc., based outside of Pittsburgh, Pa., in Warrendale, is a single-source provider of products and services for parking revenue control, time & attendance, payroll & human resources, and access control. Since 1964, we’ve been working with businesses small and large to develop integrated systems for their workforce, revenue and facilities management needs.
